

MT Wallet User Guide

MT Wallet is a new generation of crypto wallets which opens **payments on Blockchain for everyone**. It is a web-based interface which was developed to proceed both payments to the smart-contract on ModulTrade trading platform (as an interface for MT blockchain) and to provide other crypto-currency transactions. It consumes little computer memory and supports multi-crypto currencies (MTRc, ETH and BTC).

3-steps approach to make any action in the wallet:

1 Select action

2 Define parameters

3 Confirm the transaction

Registration

1. Visit our dedicated page at <https://wallet.modultrade.com/signup> and Fill up the form
2. **Create** your secure password and confirm it. And don't forget to confirm 'Captcha' and 'Term & Conditions' after reading it over. **Store** your password safely, don't lose it and don't share it with anybody.
3. **Check** your email box for email confirmation link. Tap the link and finish with signup.

Congratulations! You have successfully created your ModulTrade wallet.

Now you **have to set** the things up in order to make your wallet communicating with the world:

1. **Sign-in** and **tap** your name in the right upper corner for 'Edit profile' button to appear.
2. **Go into** your profile and **Complete** the form with the fields remain incomplete:
 - Choose your document type from the dropdown menu
 - Input document number
 - Put the residence address: Country, City, post address, zip code.
3. Ensure you've put correct data and **Tap 'Update!'** button.

Transactions

To Send, Receive crypto and Pay on MT Smart-contract:

1. **Log-in** to your wallet and on Dashboard screen find widget 'You can'.
2. For incoming and outgoing transfers:
 - **Tap 'Send tokens'** and Define yourself "Amount, currency, address", if you want to transfer your tokens.
 - **Tap 'Receive tokens'** and simply Copy a dedicated QR code to share with the sender.
 - **Tap 'Pay on MT Smart-Contract'** and Define yourself "Amount, currency, MT Smart-contract address", if you need to pay on MT platform. To complete the transaction, Tap big blue button 'Pay on MT Smart-Contract'.

To see your balance and history of transactions:

1. On Dashboard screen **find** widget 'You have'.
2. **Tap** 3-dots-menu near the currency you want to see.
3. **Click** on 'Transaction history'.

Wallet assistance

For any help on the wallet – use 'Support' button in the upper right corner. You're redirected to MT Wallet online support – https://t.me/MT_WalletSupport.

Or send your request to support@modultrade.com.
